

## Zoe Jane Elizabeth Duggan

Zoe is now 6 years old and currently in Grade 1. She also has a 2 1/2 year old brother named Zachary, whom she absolutely adores.

She attends girl guides weekly and has regular play dates with any one of her many friends. She loves school and her grades are above average.

Some of her favorite things to do are watch YouTube videos, play with her Shopkins, read books, entertain her little brother, sing and play board games as a family.

Zoe is very much aware that she has SMA and that she does things a little differently than what is typical. She is very accepting of her abilities and is certainly still a very independent little girl.

She has a wonderful life and is a very bright and happy girl. Her life is full of love, laughter and joy. She is always on an adventure and trying something new. We are determined to show Zoe that life is a gift and that hers is, and will be, a very fulfilling one.

Things aren't always this easy or joyful, but we are so thankful to have Zoe in our lives and to show us a different side of life that we never would have otherwise seen.

We are so proud of our daughter and so proud that we get to be her family.
